Accused Murderer Enters a Plea of Not Guilty.

TRIAL PROGRESSES RAPIDLY

State Will Close Its Case at Morning Session To-day, and Examination of Witnesses for Defense Will Begin-Motorman's Death Was Result of Accident, Says Coroner's Jury.

F. Clinton Knight, 825 King street, Alexandria Va., is authorized agent and carrier for The Washington Herald. The Herald will be delivered daily and Sunday to any address in Alexandria for 56

WASHINGTON HERALD BUREAU

Alexandria, Va., Jan. 6.-The opening day of the trial of Henry Smith, the negro accused of the murder of Walter F. Schultz, of Chicago, who was slain in this city March 6 last, was marked by rapid progress. A jury from Charlottesville was obtained in less than half an hour. The examination of witnesses began at 2 o'clock, and when court adjourned, at 5 o'clock, Commonwealth's Attorney Brent announced he had only a few more witnesses to examine. The State will close its case at the morning session to-morrow. Immediately thereafter the examination of witnesses for the defense will begin.

The jury is composed of A. M. E. Runkle, J. H. Nalls, S. J. Dudtey, J. E. Jarman, S. G. Blakey, E. S. Pugh, C. M. Wood, W. H. Greaves, S. H. Florence, E. R. Newman, H. E. Parrott, and W. E. White.

voice, which was audible throughout the had knocked a white man in the head. court room. Throughout the hearing he kept his eyes on the various witnesses. first degree or not guilty. A review of morning. the history of the crime was made by Mr. Brent. He was followed by Attorney R. D. Brumback, who, with Attorney Frederick P. Russell, represents Smith. The Wright, of Fairfax County, Va., to intil 2 o'clock.

Health Cranks and Food Faddists

Have Evolved Some Strange and Wonderful Theories Concerning Stomach Treatment.

A Trial Package of Stuart's Dyspepsia Tablets Sent Free.

Within the last 20 years there has orung into existence theories by the core relative to the kinds of food that uman beings should eat and should void. With the tremendous increase in nervous and stomach diseases which are caused by the strenuous life of this neu-rotic, neurasthenic age in which we live, we are constantly having our attention called to some food faddist's "new idea" on the subject of alimentation.

on the subject of alimentation.

Most prominent among these theorists is the vegetarian, who insists that meat was never intended for the human stomach, despite the fact that his ancestors for 6,000 years or more used it as their principal article of diet; and the old patriarchs of Biblical History, who lived to prodigious old ages, were meat-eaters. All of the great nations of history have been users of meat, and all of the most powerful and advanced countries of today employ it extensively in their dietaries, and their superior development and high degree of civilization are in strong and striking contrast to the decadent and degenerate nations of Asia and the tropics, whose inhabitants are vegetarians.

Another fallows which her letches to the decade and the tropics, whose inhabitants are vegetarians.

tropics, whose inhabitants are vegetarians.

Another fallacy which has lately become a fad is the so-called "low-proteid" diet. Now, the foods which are rich in proteids are the ones which build up nerve, brain, muscle, and blood, so that any great reduction in the amount of proteid used simply means semi-starvation for the most important centers of the system—the ones on which we depend the most to enable us to successfully fight the battles of life. Those nations whose people use foods containing but little proteid are never of large frame or well built. The Japanese, who have always been small of stature, have sinct adopting a more liberal proteid diet, shown a remarkable increase in size, vigor, and general development, and it is only since Japan became a meat-eating nation that it has developed into a world power.

power.

Still another theory lately advanced is that sugar, pepper, and salt are gastric irritants, and irritate the mucous membrane of the stomach, although it is known that sugar possesses a high caloric value, while pepper and salt assist digestion rather than interfere with it, as is lateral.

claimed.

The no-breakfast plan, the two-meal per day, and even the one meal daily has been advocated, while some advise a two or three weeks' fast, during which all food is withheld from the stomach "to give it a rest," completely ignoring the fact that the system's tissues are being constantly torn down and cast off, and new material to rebuild them must be supplied from the food.

It is utter nonsense to concern one's

DIE'S FROM SHOT FIRED BY PATIENT

Continued from Page One.

Carnegie medal was started, but persons interested discontinued their endeavors when they were told the nurse could not

Sterling remained at George Washington University Hospital until Monday He was not told of the shooting in his home until the day before. He had no recollection of the events of the night of December 20, and it was several hours before the truth of his informer's statement dawned upon him. When he realized what had happened he grew nearly frantic. Fears for his condition were entertained, but physicians told him Miss Brown would probably recover. He gradually recovered from the effects of the

Since then Sterling has inquired about the nurse at frequent intervals. He has not been told of the fight Drs. George Tully Vaughan, William P. Carr, and Supt. Magruder, of Emergency Hospital, made for the life of the nurse. It will be several days, probably weeks, before Sterling is told Miss Brown is dead. The convalescent is at home, where Dr. Biggs is in almost constant attendance. Coroner Nevitt will hold an inquest to determine the cause of Miss Brown's death. The hearing will be informal, as the officials are aware Sterling was not in possession of his senses when he fired the shot.

Arrangements have not been made for the funeral. It is likely the body will be removed to the Brown home, near Littleton, Sussex County, Va., from which Miss Brown departed several years ago. The deceased nurse graduated from Columbia Hospital in May of last year. She had a host of friends in Washington. where she won success in her study and work. After her removal to Emergency courage would save her life, as she with-
